

## ABOUT COSEMIN

- The company Consultoría y Servicios Mineros Limitada (COSEMIN) was founded in April 2012 to develop business & marketing models, industrial projects and sustainable extraction technologies for Iodine, Potassium, Lithium and Cobalt.
- At present, the company is exploring and exploiting mineral resources needed for electromobility, such as; Copper, Cobalt, Precious Metals and Rare Earth Elements.
- COSEMIN owns 100% of Nicanor Project, medium to large IOCG target hosted in La Negra Formation, near to Vallenar, Chile.
- Additionally, it possesses a medium size copper-silver under ground operation (Mina Pastizal-Picachos), near to Andacollo, Region of Coquimbo, Chile.
